An effective technique for determining a price is to send out a survey to your current customers. If these prospects have already purchased an ebook from you, ask for his or her opinion in terms of price. Do this by creating a gross sales web page for the new ebook, however don't include a value on that page. As a substitute, add a number of hyperlinks to survey questions that ask pointed questions to assist you in assigning a value to your ebook.

Another technique is to test out prices by creating a variety of duplicate gross sales pages with totally different costs on each page. Ensure that your gross sales copy is precisely the same on every web page, and contains your selling-handle sentence. Then determine for each web page the conversion ratio between guests to your site and gross sales of your book. It will let you know what your optimum worth is.

Ultimately, for those who've written a e book that solves a drawback or presents a new technique,

your guide will herald both traffic and profits. So you'll want to write that selling-handle sentence that sums up what problem your e-book solves and what the advantages of your *Bruin Manual* guide shall be to the purchasers who buy it. And then watch your market come to you!
