An effective method for figuring out a price is to ship out a survey to your current customers. If these customers have already bought an e book from you, ask for his or her opinion by way of price. Do that by making a sales page for the brand new book, but do not embrace a value on that page. One other strategy is to test out costs by making a number of duplicate gross sales pages with completely different costs on every page. Ensure that your sales copy is precisely the identical on

every web page, and consists of your promoting-deal with sentence. Then figure out for every web page the conversion ratio between guests to your website and sales of your book. This can tell you what your optimum price is.
