An efficient method for figuring out a price is to ship out a survey to your present customers. One other strategy is to test out prices by making a variety of duplicate gross sales pages with completely different costs on every page. Be certain your sales copy is strictly the identical on each web page, and contains your selling-handle sentence. Then figure out for every web page the conversion ratio between visitors to your web site and sales of your book. This can inform you what your optimum value is.

In the end, if you happen to've written a e-book that solves a problem or presents a brand new technique, your e book will herald each traffic and profits.
