Besides promoting your books assiduously online, there are a number of different methods that may allow you to promote more books.

One is to present something away at no cost together with your e book, such as a beneficial bonus item. Or bundle a number of ebooks under one worth, which lowers the worth for each book if they have been offered separately.

An effective technique for figuring out a value is to ship out a survey to your present customers. If these prospects have already purchased an ebook from you, ask for their opinion by way of price. Do this by making a gross sales web page for the new e-book, but do not embody a worth on that page. Instead, add a lot of links to survey questions that ask pointed questions to help you in assigning a price to your ebook.

Another strategy is to check out prices by creating a number of duplicate gross sales pages with different costs on every page. Ensure that your sales copy is precisely the same on each page, and

consists of your promoting-handle sentence. Then determine for every page the conversion ratio between visitors to your web site and sales of your book. This will inform you what your optimum price is.

In the end, if you've written a guide that solves a downside or presents a new technique, your guide will herald both site visitors and profits. So remember to write that selling-handle sentence that sums up what problem your ebook solves and what the advantages of your 2185 book shall be to the customers who purchase it. After which watch your market come to you!
