An efficient approach for figuring out a price is to ship out a survey to your present customers. If these customers have already purchased an e-book from you, ask for their opinion by way of price. Do that by making a gross sales web page for the new e-book, but don't embrace a price on that page. Instead, add a variety of links to survey questions that ask pointed questions to aid you in assigning a price to your ebook.

One other strategy is to check out prices by creating a number of duplicate gross sales pages with different prices on each page. Make certain your gross sales copy is exactly the same on each page, and contains your promoting-deal with sentence. Then figure out for each page the conversion ratio between visitors to your site and sales of your book. This may let you know what your optimum price is.

Ultimately, when you've written a e book that solves a drawback or presents a new technique, your book will bring in each traffic and profits.
