An effective approach for figuring out a price is to send out a survey to your current customers. If these customers have already purchased an e-book from you, ask for his or her opinion in terms of price. Do this by making a gross sales page for the new book, however don't embody a value on that page. As an alternative, add various hyperlinks to survey questions that ask pointed questions to help you in assigning a value to your ebook.

Another technique is to test out prices by creating a number of duplicate sales pages with completely different prices on each page. Be certain your sales copy is precisely the same on each page, and contains your promoting-handle sentence. Then figure out for each page the conversion ratio between guests to your site and sales of your book. This will inform you what your optimum value is.

Ultimately, if you happen to've written a guide that solves a drawback or presents a brand new approach, your e-book will usher in both visitors and profits.
